

MCnet Meeting 2022

Wednesday, 21 September 2022 - Friday, 23 September 2022

Universität Graz

Book of Abstracts

Contents

| | |
|----------------------------------------------------------------------------------|---|
| Showers | 1 |
| Soft QCD | 1 |
| Algorithms and machine learning | 1 |
| Going parallel within MG5AMC | 1 |
| MadNIS: Neural networks for multi-channel integration | 1 |
| Chirality flow and its implementation | 1 |
| Discussion | 1 |
| Implementation of polarised cross sections for vector bosons in Sherpa | 2 |
| tbd | 2 |
| Introducing new faces | 2 |
| Multi-emission Kernels for Parton Branching | 2 |
| Improved dipole showers | 2 |
| Rings and strings for enhanced coherent branching algorithms | 2 |
| Informal updates on other topics: EWK, BSM, and fixed order techniques | 2 |
| Welcome | 3 |
| Introducing the new network | 3 |
| Funding for small and large networks | 3 |
| Contur: new results and technical developments | 3 |

Topical Talks / 6

Showers

Corresponding Author: simon.platzer@cern.ch

Topical Talks / 7

Soft QCD

Corresponding Author: stefan.gieseke@kit.edu

Topical Talks / 8

Algorithms and machine learning

Corresponding Author: steffen.schumann@phys.uni-goettingen.de

Topical Talks / 9

Going parallel within MG5AMC

Corresponding Author: olivier.mattelaer@uclouvain.be

Topical Talks / 10

MadNIS: Neural networks for multi-channel integration

Corresponding Author: ramon.winterhalder@uclouvain.be

Topical Talks / 11

Chirality flow and its implementation

Corresponding Author: andrew.lifson@thep.lu.se

Topical Talks / 12

Discussion

Topical Talks / 13

Implementation of polarised cross sections for vector bosons in Sherpa

Corresponding Author: diana.mareen.hoppe@cern.ch

Topical Talks / 14

tbd

Topical Talks / 15

Introducing new faces

Topical Talks / 16

Multi-emission Kernels for Parton Branching

Corresponding Author: maximilian.loeschner@cern.ch

Topical Talks / 17

Improved dipole showers

Corresponding Author: cody.b.duncan@kit.edu

Topical Talks / 18

Rings and strings for enhanced coherent branching algorithms

Corresponding Author: jack.holguin@polytechnique.edu

Topical Talks / 19

Informal updates on other topics: EWK, BSM, and fixed order techniques

Welcome and introducing the "new" network / 20

Welcome

Corresponding Author: simon.platzer@cern.ch

Welcome and introducing the "new" network / 21

Introducing the new network

Corresponding Author: leif.lonnblad@thep.lu.se

Funding opportunities / 22

Funding for small and large networks

Topical Talks / 23

Contur: new results and technical developments

Corresponding Author: yoran.yeh.20@ucl.ac.uk
