

CLIC two-beam module

G. Riddone, BE/RF, 14.10.2009

WG5/ Two-beam module session

Wed 14.10

- 11:00 *Baseline of Module until CDR and Test Program* – G.Riddone
- 11:25 *Module Integration Issues* - A. Samoshkin (Joint Inst. for Nuclear Research (JINR))
- 11:50 *Thermo-mechanical conditions of the module* – R. Nousiainen (Helsinki Institute of Physics (HIP))
- 12:10 *Module pre-alignment: baseline and test program* – H. Mainaud-Durand

WG4 / RF structures and sources

Thu 15.10

- 16:35 *Vacuum specifications for the linacs* – G. Rumolo
- 17:00 *Vacuum system for the main linacs* – C. Garion
- 17:25 *RF aspects of module vacuum system* – R. Zennaro
